### **NATIONAL MEDICAL ASSOCIATION HOSTS THE 2007 ANNUAL CONVENTION AND SCIENTIFIC ASSEMBLY HAWAII CONVENTION CENTER, HONOLULU, HAWAII**

*“Collaboration of Health Professionals at the Point of Practice: Emphasizing the roles of Physicians, Nurse Practitioners, Nurses, Pharmacists and Physician Assistants”*

**WHAT** The nation’s largest and most renowned scientific assembly on health issues affecting minority and underserved populations, the National Medical Association (NMA), will unite some of the most prominent medical scholars, scientists and practitioners from around the country. Cutting-edge research, diagnostic methods, therapeutics, practice issues, and the latest technology will be presented throughout 24 medical specialties—from Aerospace Medicine to Women’s Health issues. The theme of the convention is **“Collaboration of Health Professionals at the Point of Practice: Emphasizing the roles of Physicians, Nurse Practitioners, Nurses, Pharmacists and Physician Assistants.”**

**WHEN** Saturday, August 4, 2007-Thursday, August 9, 2007

**WHO** The NMA is a medical society representing the interests of more than 30,000 African American and minority physicians. Members of the association are committed to facilitating the health challenges of African Americans and other communities of color.

**WHERE** The 2007 Annual Convention and Scientific Assembly will be held at the Hawaii Convention Center, Honolulu, Hawaii.

**WHY** Guest physician lecturers from leading institutions, NMA physician experts, and scientists will discuss:

- **How diseases affecting the African American and communities of color are managed in today’s medical practices.**

The Scientific Assembly is designed to provide educational opportunities through special sessions, post-graduate courses and individual programs from 24 separate specialties.
